Clear browsing data...

Google Chrome may use web services to improve your browsing experience. You may optionally disable these services. [Learn more](#)

- Use a web service to help resolve navigation errors
- Use a prediction service to help complete searches and URLs typed in the address bar or the app launcher search box
- Prefetch resources to load pages more quickly
- Automatically report details of possible security incidents to Google
- Enable phishing and malware protection
- Use a web service to help resolve spelling errors
- Automatically send usage statistics and crash reports to Google
- Send a "Do Not Track" request with your browsing traffic

Clear cache by selecting the "Cached images and files" checkbox and clicking on the "Clear browsing data"
